

WAN HAI LINES LTD.

Supplier Management Policy

WAN HAI LINES LTD. is a shipping company that handles container transportation who adheres to the business philosophy of full participation and perpetual operation, and continues to improve in corporate governance, environmental sustainability, social responsibility and public welfare. The company deeply understands that working together with suppliers can continue to provide responsible and high-quality container transportation services to the environment, society and customers. We are committed to promoting and continuously improving issues such as business ethics, labor and human rights, occupational safety and health, and environmental protection :

1. Suppliers should adhere to the principles of business ethics and ethics, and prohibit illegal acts such as illegal interests.
2. Suppliers should comply with international and local human rights and labor standards, ban child labor and ensure equal treatment of employees.
3. Suppliers should follow relevant international occupational safety and health and environmental protection conventions and local regulations to prevent occupational hazards and environmental accidents.
4. Implement supplier assessment and control mechanisms and treat all suppliers fairly.
5. Cooperate with suppliers to promote corporate social responsibility, services and products comply with relevant sustainability standards, reduce environmental impact and social impact.
